Ideal 4605 High Capacity Cross Cut Shredder

Description

The MBM Ideal 4605 Cross Cut Shredder offers a high-level P-3 Security for efficient data destruction in industrial and business settings. Featuring a Comprehensive Safety Shield System, this shredder ensures safe operation with emergency shut-off capabilities. Equipped with an Electric Capacity Control System, it effectively monitors sheet capacity to prevent jams and overloads.

- Top loading feed hopper for easy disposal of bulky materials like crumpled paper
- Special rotating paddle for positive feeding of bulky items into the cutting head
- Automatic start and stop with a standard feed opening for flat paper
- Soft-touch control keys for seamless operation control

This shredder is designed with high-quality, hardened steel cutting shafts that can handle CDs and hardbound documents, backed by a lifetime warranty. The powerful 3-phase motor ensures continuous operation, while the durable gears are housed in a dust-proof enclosure for longevity. With a 61-gallon shred volume and automatic power cut-off features for safety, this shredder is a reliable solution for high-volume shredding needs.
